Dear Residents

### **DISPOSAL OF REFUSE BAGS**

Some residents living in the block are not disposing of their household waste in the correct manner. On almost a daily basis small and large rubbish bags have been found on the floor inside and outside the bin room. See photo below

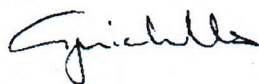

Disposing of your rubbish bags in this manner is considered anti-social behaviour and a breach of your tenancy conditions. By leaving your rubbish bags on the floor as pictured above you are feeding and encouraging Rats into the block.

Please ensure all small bags are tied securely and placed in the large black bags hanging on the bin room wall. Larger bags can be taken to the large green bins around the estate if possible. Your nearest green bins are located at the front and rear of the block

**Please refrain from dumping bags on the floors and help keep the environment around you tidy.**

Thank you for your cooperation.

Yours sincerely

Gary Nicholls  
Estate Services Supervisor
